## The phone designed for kids, managed by parents

Connections and apps kids want, with peace of mind for parents

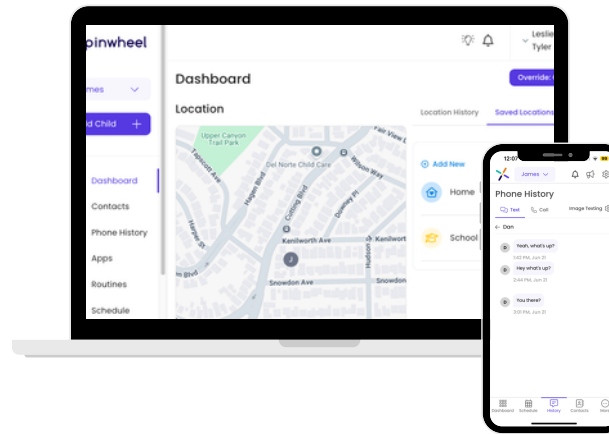

# How it Works

1

## Choose your phone

Pinwheel offers high-quality models for every budget from Samsung, Motorola, Google and more. Starting at just \$119.

3

## Customize your phone in the Caregiver Portal

- Approve contacts
- Monitor text messages
- Review and choose apps from the 1,200+ vetted App Library
- Choose other apps from the Google Play Store if needed
- Create schedules for contacts and apps (hello, school mode!)
- See GPS location and set up alerts when your child is on the move

2

## Choose your carrier

Pinwheel Wireless offers unlimited talk and text, 5GB of high speed data and one easy bill for just \$29.99/mo. Or add Pinwheel to your existing cell plan and subscribe to the Caregiver Portal only.

Pinwheel makes it possible to get our children used to smart phones as a tool without constant distractions of social media or unfiltered internet browsing.

We're trying to build healthy habits, and the caregiver interface lets us keep watch (without controlling).

-Jacob S., Missouri
