The phone designed for kids, managed by parents

Connections and apps kids want, with peace of mind for parents

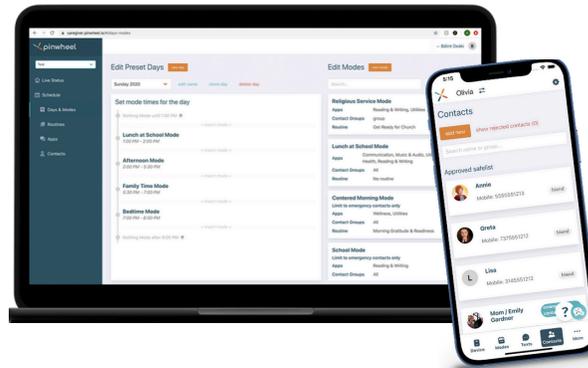

How it Works

1 Choose your phone

Pinwheel offers high-quality models for every budget from Samsung, Motorola, Google and more. Starting at just \$99.

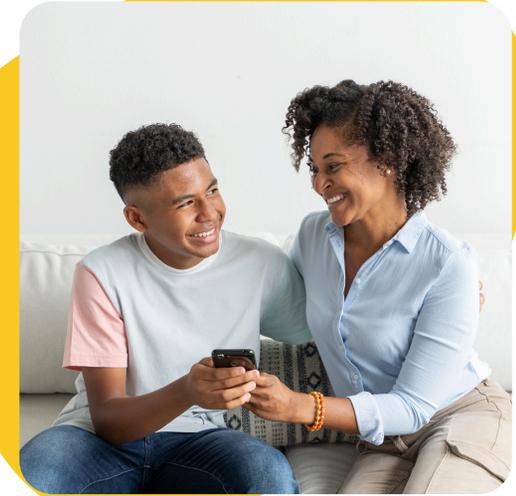

2 Choose your carrier

Pinwheel phones work with most major carriers, so you can add your child's phone to your existing plan, or try one of our partner plans for as low as \$15/ month.

3 Customize your phone in the Caregiver Portal

- Approve contacts
- Monitor text messages
- Review and choose apps from the 1,200+ vetted App Library
- Choose other apps from the Google Play Store if needed
- Create schedules for contacts and apps (hello, school mode!)
- See GPS location and set up alerts when your child is on the move

Pinwheel makes it possible to get our children used to smart phones as a tool without constant distractions of social media or unfiltered internet browsing.

We're trying to build healthy habits, and the caregiver interface lets us keep watch (without controlling).

-Jacob S., Missouri
